

OFFICE FOR HARMONIZATION IN THE INTERNAL MARKET
(TRADE MARKS AND DESIGNS)

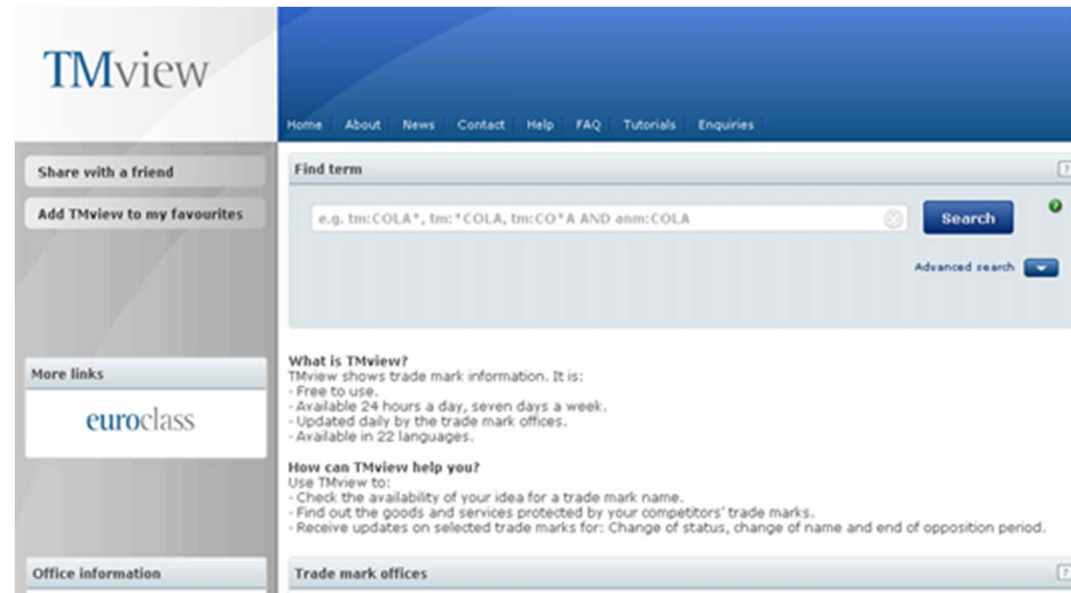

Designview

Seminar on Community trade mark and design protection.

Bernardo Viana – ICLAD - OHIM
Rospatent, Moscow, Russian Federation
7 March 2012

This project aims to create a single design search tool to allow online access to selected information about National, International and Community designs based on information provided by the participant offices (similar to TMview - <http://www.tmview.europa.eu/tmview/welcome.html>)

Benefits

Enhance end user experience:

- Allows users to check only once the existing designs across Europe.
- Allows designers/companies to check market tendencies.
- Easy access to post-registration services in harmonized way, increase user satisfaction: planning their IP protection strategy and making more use of the protection systems, creating more business.

Other benefits

- Could help a judge in case of conflict between parties
- Helping customs
- Would help users to check the novelty of a design
- Would help Offices to carry out in-depth examination
- Would help examiners to check earlier priority rights

Welcome to Design View

DesignView is a centralized access point to view the registered design information held by any of the participating National Offices, in a unique presentation format, independently of which office the data is coming from.

The design search tool will be based on the data of the registers of the participating offices, the WIPO and the OHIM.
